IOT DATA LOGGER. GLOBAL TRACKING. BATTERY FOR YEARS. HARD-TO-KILL.

FULL BUSINESS VISIBILITY WITH IOT TRACKING SOLUTION

Trusted A/S was founded in Denmark in 1999. We are specialized in IoT tracking solutions, advanced sensors and data visualization via 2G, 3G and LTE network for equipment, vehicles and machinery.

Our battery-powered data loggers are built to work in the most extreme environments for years with smart sensors protected by a robust and waterproof hardware.

With our cloud-based software, you are able to analyze all your data online and get a precise overview of whatever you need to know to manage and optimize your business.

Do as our customers all around the globe: **gain valuable insights, improve efficiency and reduce costs** - solving your challenges is our business.
